PALMA ISSUES DECREE

Suspending Offensive Operations of Government Troops—Rebels Say They Would Be Satisfied With Another Election.

Havana, Cuba, Sept. 17.—It is widely rumored here today that President Palma will shortly issue a call for a special election as the easiest solution of the present situation. The rebels say that such an act will instantly quell the insurrection.

Late yesterday President Palma issued a decree suspending offensive operations by the government. The decree says:

"All campaign operations are suspended, and in consequence the government forces will act only on the defensive throughout the republic. The secretary of the interior will issue all necessary orders for the execution of this decree."

The decree caused great surprise, as it was believed to signify a change of heart by the government officials, who, for the last two days, have been strongly against taking up peace overtures with the emissaries of the revolutionists.

After the decree was issued, government emissaries were despatched in automobiles to confer with the revolutionists. General Menocal, accompanied by Congressman Gobin and Garcia Viera, the youngest son of Calixto Garcia, drove in the direction where Alfredo Zayas was encamped with Castillo's forces not far from Santiago de las Vegas, and others went to Guanajay, which place yesterday afternoon was occupied by a big band of revolutionists, under the command of Congressman Campos Marqueti. The latter had Mayor Galles and the 200 volunteers defending the town, cooped up in a carol and surrounded by a swarm of insurgents. The mayor up to last evening had defied Campos Marqueti and was still holding out for the peace emissaries arrived. Meanwhile Campos Marqueti was threatening to blow up the carol with dynamite.

Gen. Freyre Andrade, when asked about the terms discussed at the conference with the revolutionists, said that the matter had not yet come along to discuss actual peace terms. The conference had only touched them informally, he declared, but one thing was certain—that the government would never agree to annul constitutional elections, and that contention must be eliminated from the claims of the revolutionists. He thought there was reason to believe the government and the hostile elements would get together on terms, although this, as yet, was uncertain. Those who had been sent to confer with the revolutionists carried passes for themselves and as many of the revolutionists as they chose to bring into the city.

The general said that the government appreciated the friendly efforts of the United States and would avail itself of them if its own efforts were unsuccessful, but that naturally it preferred to settle the trouble without intervention.

Simultaneously with the issuance of the decree declaring a cessation of hostilities the special judge in charge of the cases against the alleged conspirators in prison and prisoners recently captured, liberated thirty of the latter against whom indictments had been issued. Meanwhile a warrant was issued for Felipe Romero, a wealthy young Cuban, who has been representing the revolutionists in various errands to Commander Colwell of the United States cruiser Denver, and who is charged with being the recipient of communications from the New York revolutionary junta. But now that hostilities have been suspended it is probable that no arrest will be made.

The Last Encounter.

No other encounter than that resulting in the capture of Guanajay was reported yesterday. Traffic is again impeded on the Calabazas bridge. The railroad employees who were captured by the revolutionists have been released. Pino Guerra's force has not yet approached Havana province. It is much depleted and is moving slowly eastward. Owing to extremely meager war facilities little is known concerning the situation in Santa Clara, except that at Arroyo Blanco, fifty cavalrymen defeated 100 mounted revolutionists belonging to the force of Senor Canisares, speaker of the house, killing several and capturing arms, ammunition and supplies. The Havana defenses continue to be strengthened.

Vice President Mendos Capote said last night that nothing as yet had been decided on which to base peace negotiations. This was being discussed by representatives of the moderates with Alfredo Zayas, but the result probably would not be made public until a further conference had been held. He said by the time of the arrival of Secretary Taft it was hoped that a permanent adjustment of the difficulties will be fixed and ready for Mr. Taft's approval. He had not thought of not securing the friendly informal approval of the United States to the settlement of the difficulties, since he realized this was necessary to Cuba's permanent peace and prosperity.

Rosebrook says that the alleged discrepancy in the company's finances is due entirely to misapprehension.

"THE BOY BROKER" DEAD.

Threw Himself Under Wheels of a Trolley Car—Mind Unbalanced.

Wilson had recently recovered from an attack of typhoid fever and the suicide is believed to have been due to an unbalanced mind.

Several years ago Wilson surprised Wall street by his youthful speculations which were reported to have resulted in large profits. Subsequent investments proved unsuccessful and he abandoned the curb for a responsible position with a business house.

There was every indication that he had been assaulted and robbed. He died while being taken to the Lynn hospital in the police ambulance.

According to the report of Medical Examiner Dr. Joseph G. Pinkham, to Deputy Chief of Police Bartlett, the man was murdered by receiving a blow on his head. He had received \$19.50 for his week's wages from John A. Swain, 67 State street, Saturday afternoon, but when found there was not a cent of money in his clothing.

Burlington, Sept. 17.—The board of assessors, consisting of F. O. Boumprie, Van A. Nye and P. H. Corley, completed the quadrennial appraisal of the real estate in Burlington Saturday, having been at work all summer. Every piece of real estate has been personally inspected and aggrieved taxpayers were given an opportunity to be heard. There were, however, but few objections.

The result of this year's work as filed shows the total appraisal of real estate to be \$10,829,085. The total exemptions are \$236,400. This leaves a total valuation which will be assessed for taxes of \$10,592,685.

The quadrennial appraisal of 1902 was \$9,133,168 and the gain in four years is, therefore, \$1,704,416. This is a much larger gain than in the appraisal of 1902 over that of 1898, when it was only \$612,882.

Were Put Up at the Demeritt & Palmer Factory.

Randolph, Sept. 17.—The Demeritt & Palmer packing company's corn canning factory, which has been running for the past two weeks, closed for the season Saturday night. The total output of cans of corn will amount to over 250,000, the greatest number of cans put up in one year being 28,000, and the daily average being about 25,000 cans. During the season 30 hands were employed in the factory and from 25 to 35 men, women and children in the adjoining husking shed. The proprietors have not figured the exact amount of corn taken at the factory, but estimate between 420 and 500 tons, or an average of over three tons per acre for the farmer. There is yet a considerable amount of work to be done at the factory, and it will take some little time to label 250,000 cans of corn.
